THE LEBANESE CONFERENCE ON INFORMATION SYSTEMS 2017

New York

Beirut

Partnership

The Conference is organized in partnership with The Association for Information Systems (AIS) through its chapter in Lebanon (LAIS). AIS is an international, not-for-profit, professional association with the stated mission to serve society through the advancement of knowledge, and the promotion of excellence in the practice and study of information systems. Membership is made up primarily of academic educators, researchers, and institutions that specialize in information systems (IS) development, implementation, and evaluation. The association has members in more than 90 countries and is led by a president who is annually elected from one of three world regions—the Americas, Europe and Africa, and Asia-Pacific—on a rotating basis.

Publication Opportunity

The conference provides researchers with the opportunity to publish their papers in refereed Scopus-indexed and/or ABDC-listed journals such as:

Springer Lecture Notes in Information Systems

International Journal of Electronic Healthcare

International Journal of Services and Standards

Journal of Corporate Ownership and Control

Review of Middle East Economics and Finance
